

Policy for the Protection of Children from Harm

Preamble

1. The provisions of this Policy are hereby introduced at Fundacja Firma Dla Każdego (the "Foundation"), with its registered office in Warsaw, at ul. Lwowska 17/4, 00-660 Warszawa, entered in the Register of Associations, Other Social and Professional Organisations, Foundations and Independent Public Health Care Institutions, as well as in the Register of Entrepreneurs of the National Court Register kept by the District Court for the Capital City of Warsaw in Warsaw, 12th Commercial Division of the National Court Register, under KRS number 0000569410, NIP: 5252625624, REGON: 362170026, in connection with activities performed for the benefit of Fundacja Firma Dla Każdego by organised parts of the enterprise operating within its structures (so-called Startups), whose activity is to any degree connected with work with children.
2. The overriding principle of all actions undertaken by Fundacja Firma Dla Każdego is to act for the good of the child and in the child's best interest. The Foundation treats the child with respect and takes the child's needs into account. The use of violence in any form against a child by anyone is inadmissible. In pursuing these objectives, the Foundation acts within the framework of applicable law, internal regulations and its competences.

Chapter I

Explanation of Terms

§ 1

1. The Foundation means Fundacja Firma Dla Każdego with its registered office in Warsaw.
2. A child means any person until they reach 18 years of age.
3. Work with children means care, educational, resocialisation, religious, artistic, medical, recreational or sports activity, or activity connected with the development of interests, performed with respect to or for the benefit of children.
4. A Beneficiary means a natural person who has concluded with the Foundation an agreement governing the mutual rights and obligations of the Foundation and the Beneficiary (the Cooperation Agreement), on the basis of which the Beneficiary operates a Startup whose activity is to any degree connected with work with children.
5. A Startup means an organised part of the Foundation's enterprise, bearing a name given by the Beneficiary and separated for the Beneficiary's purposes within the

Support Programme run by the Foundation, whose activity and provision of services is to any degree connected with work with children.

6. A Startup Associate means any person cooperating with the Foundation within a Startup on the basis of a civil-law contract.
7. A child's guardian means a person authorised to represent the child, in particular the child's parent or legal guardian. Within the meaning of this document, a foster parent is also a guardian.
8. Coordinator means a person empowered by the Foundation's Management Board to manage a branch of the Foundation.
9. Consent of the child's parent means the consent of at least one of the child's parents. However, in the event of a lack of agreement between the child's parents, the parents shall be informed of the need to have the matter resolved by a family court.
10. Harm to a child means the commission of a prohibited act or a punishable act to the detriment of a child by any person, including a Beneficiary or a Startup Associate, or a threat to the child's welfare, including neglect of the child.
11. The person responsible for the Internet in a Startup means a Startup Associate designated by the Beneficiary, exercising supervision over children's use of the Internet at the place where the Startup provides its services and over children's safety on the Internet.
12. The person responsible for the Policy for the Protection of Children from Harm means a person designated by the Beneficiary, exercising supervision over the implementation of the Policy for the Protection of Children from Harm within the Startup.
13. A child's personal data means any information enabling the identification of the child.
14. The Foundation's management means the body managing the Foundation in accordance with its statute and the provisions of law; this term shall also be understood to mean the person responsible for conducting an intervention in a given Startup, e.g. the Beneficiary.
15. The Register means the Register of Sexual Offenders with restricted access and the Register of persons in respect of whom the State Commission for Counteracting Sexual Abuse of Minors under the Age of 15 has issued a decision on entry in the Register. The Register is available at: rps.ms.gov.pl.

Chapter II

Identifying and Responding to Risk Factors of Harm to Children

§ 2

1. Every Beneficiary/Startup Associate, before being admitted to the performance of their tasks, provides personal data which the Foundation then uses to fulfil the obligation set out in Article 21 of the Act of 13 May 2016 on Counteracting Threats of Sexual Offences (consolidated text: Dz. U. of 2023, item 1304, as amended) and to check the Beneficiary/Startup Associate in the Register. The check also applies to persons under 18 years of age. A printout of the first and the most recent check of the person in the Register is kept in the personal files of the Beneficiary/Startup Associate. The Foundation may not enter into cooperation, in the scope of activity that is to any degree connected with work with children, with a person listed in the Register. The scope of personal data needed to check a person in the Register is set out in Annex No. 1 to this Policy. The Foundation's management is responsible for the fulfilment of this obligation and may authorise another associate to do so, in particular the Coordinator.
2. In addition, the Beneficiary/Startup Associate submits to the Foundation a certificate from the National Criminal Register confirming no criminal record in respect of the offences specified in Chapters XIX and XXV of the Criminal Code, in Articles 189a and 207 of the Criminal Code, and in the Act of 29 July 2005 on Counteracting Drug Addiction, or for prohibited acts corresponding to those offences as defined in the provisions of foreign law.
3. A Beneficiary/Startup Associate holding the citizenship of a state other than the Republic of Poland also submits to the Foundation a certificate from the criminal register of the state of their citizenship, obtained for the purposes of professional or voluntary activity involving contact with children. In addition, every Beneficiary/Startup Associate submits to the Foundation a declaration concerning the state or states, other than the Republic of Poland and the state of citizenship, in which they have resided during the last 20 years (the template of the declaration constitutes Annex No. 3), together with certificates from the criminal registers of those states obtained for the purposes of professional or voluntary activity involving contact with children, insofar as the law of the given state provides for the issuance of such a certificate.
4. However, if the law of the given state does not provide for the issuance of certificates for the aforementioned purposes, the Foundation obtains from the Beneficiary/Startup Associate a declaration of no criminal record made under pain of criminal liability, constituting Annex No. 4 to the Policy.
5. In order to monitor safety at the Foundation, beyond fulfilling the obligation set out in the paragraphs above, the Foundation verifies each year whether the Beneficiary/Startup Associate still does not appear in the Register.

6. Irrespective of verification in the Register, every Beneficiary/Startup Associate over 17 years of age signs a declaration, the template of which constitutes Annex No. 2 to the Policy.
7. In the event of obtaining information that criminal proceedings have been initiated against a Beneficiary/Startup Associate concerning an offence against sexual freedom or an offence involving violence committed against children, that person shall be immediately removed from all forms of contact with children, or termination of the agreement with that person shall be considered.

§ 3

1. The Startup does not contact children through private communication channels without the knowledge of their legal guardians.
2. The Startup does not conduct private conversations with children using social media. Beneficiaries and Startup Associates may conduct group correspondence with children on topics related to the Startup's activity, provided that at least one parent/legal guardian of the child participates in the joint conversation.
3. If a private conversation via social media is initiated by the child themselves, the Beneficiary/Startup Associate does not continue the conversation and instructs the child to approach them at the place of the Startup's activity or via official remote communication channels. This rule does not apply to situations of (even potential) danger to the child's life or health. In such a case, the Beneficiary/Startup Associate may continue the conversation but is at the same time obliged to notify the Coordinator of the contact with the child and the reasons for that contact. The notification should, where possible, be made in writing or by e-mail.

§ 4

1. The Beneficiary/Startup Associate possesses knowledge of, and, within the scope of their duties, pays attention to, risk factors and symptoms of harm to children.
2. Where risk factors are identified, the Beneficiary/Startup Associate initiates a conversation with the child's parents or guardians, providing information on the available support offer and motivating them to seek help for themselves.
3. The Startup monitors the child's situation and well-being.

Chapter III

Intervention Procedures in the Event of Harm to a Child and a Threat to a Child's Safety

a) General principles

§ 5

1. The Startup, where possible, conducts periodic (at least once a year) sessions for children on the subject of safe relationships with other persons, including adults, and the need to report to adults anything that worries them.
2. Threats to children's safety may take various forms, using various means of contact and communication.
3. For the purposes of this document, the following classification of threats to children's safety has been adopted:
 1. an offence has been committed to the detriment of a child (e.g. sexual abuse, mistreatment of a child),
 2. another form of harm has occurred which does not constitute an offence, such as e.g. shouting, physical punishment, humiliation,
 3. the child's basic life needs have been neglected (e.g. those related to nutrition, hygiene or health).
4. For the purposes of this document, intervention procedures have been distinguished in the event of a suspicion of action to the detriment of a child by:
 1. a Beneficiary/Startup Associate,
 2. other third parties,
 3. parents/legal guardians,
 4. another child.

§ 6

1. Where a Beneficiary or a Startup Associate forms a suspicion or obtains information that a child is being harmed, they are obliged to draw up a note and forward the information obtained to the Foundation's management. The note may be in written or e-mail form.
2. Where another person has been designated to conduct the intervention, the term "the Foundation's management" shall be understood to mean the person responsible for conducting the intervention. At the Foundation, the other person designated to conduct interventions within a given Startup is the Beneficiary for whom the Startup was created.
3. If harm has been reported on the part of the person designated to conduct the intervention, the intervention is conducted by the Foundation's management.

4. If harm has been reported on the part of the Foundation's management, the actions described in this chapter are undertaken by the person who noticed the harm or to whom the suspicion of harm was reported.
5. Specialists, in particular psychologists and pedagogues, may be invited to participate in the intervention in order to make use of their assistance when talking to the child about difficult experiences.

§ 7

1. Where it is suspected that a child's life is in danger or that the child is at risk of grievous bodily harm, the relevant services (the Police, emergency medical services) shall be notified immediately by calling 112 or 999 (emergency medical services). The notification of the services is made by the Beneficiary or the Startup Associate who first obtained the information about the danger, who then completes an intervention card.

§ 8

1. An intervention card, the template of which constitutes Annex No. 5 to this Policy, is drawn up for the course of each intervention. The card is attached to the child's documentation.
2. The Beneficiary or Startup Associates and other persons who, in connection with the performance of their duties, have obtained information about harm to a child or information related thereto, are obliged to keep such information confidential, excluding the transfer of information to authorised institutions as part of intervention actions.
3. Where the suspicion of a threat to a child's safety was reported by the child's guardians and the suspicion has not been confirmed, the child's guardians shall be informed of this fact in writing.

b) Harm on the part of a Beneficiary/Startup Associate

§ 9

1. Where harm to a child by a Beneficiary/Startup Associate has been reported, that person is immediately removed from all forms of contact with children (not only the harmed child) until the matter is clarified.
2. The Foundation's management conducts a conversation with the child and with other persons who have or may have knowledge of the incident and of the child's personal (family, health) situation, in particular the child's guardians. The Foundation's management endeavours to establish the course of the incident, as well as the impact of the incident on the child's mental and physical health. The findings are recorded on the intervention card (Annex No. 5).
3. The Foundation's management organises a meeting/meetings with the child's guardians, at which it provides them with information about the incident and about

the need/possibility of using specialist support, including from other organisations or services.

4. Where an offence has been committed against a child, the Foundation's management draws up a notification of the possible commission of an offence and submits it to the locally competent police or public prosecutor's office. The template of the notification is set out in Annex No. 6.
5. Where a Beneficiary/Startup Associate has committed against a child a form of harm other than the commission of an offence to the child's detriment, the Foundation's management should examine all the circumstances of the case, in particular hear the Beneficiary/Startup Associate suspected of the harm, the child, and other witnesses of the incident. Where the violation of the child's welfare is significant, in particular where discrimination or a violation of the child's dignity has occurred, termination of the legal relationship with the person who committed the harm should be considered, or such termination should be recommended to that person's superiors.

c) Harm by other third parties

§ 10

1. Where harm to a child by a third party (a stranger or a relative) has been reported, the Foundation's management conducts a conversation with the child and with other persons who have or may have knowledge of the incident and of the child's personal (family, health) situation, in particular the child's guardians. The Foundation's management endeavours to establish the course of the incident, as well as the impact of the incident on the child's mental and physical health. The findings are recorded on the intervention card (Annex No. 5).
2. The Foundation's management organises a meeting/meetings with the child's guardians, at which it provides them with information about the incident and about the need/possibility of using specialist support, including from other organisations or services.
3. Where an offence has been committed against a child, the Foundation's management draws up a notification of the possible commission of an offence and submits it to the locally competent police or public prosecutor's office. The template of the notification is set out in Annex No. 6.
4. Where it follows from the conversation with the guardians that they are not interested in helping the child, ignore the incident or otherwise fail to support the child who has experienced harm, the Foundation's management draws up an application for examination of the family's situation, which it submits to the competent family court (template in Annex No. 7).
5. The further course of the proceedings lies within the competence of the institutions referred to in the preceding points.

d) Harm on the part of parents/guardians

§ 11

1. Where harm to a child by parents/guardians has been reported, the Foundation's management conducts a conversation with the child and with other persons who have or may have knowledge of the incident and of the child's personal (family, health) situation. The Foundation's management endeavours to establish the course of the incident, as well as the impact of the incident on the child's mental and physical health. The findings are recorded on the intervention card (Annex No. 5).
2. Where an offence has been committed against a child, the Foundation's management draws up a notification of the possible commission of an offence and submits it to the locally competent police or public prosecutor's office. The template of the notification is set out in Annex No. 6.
3. Where it follows from the findings made that the child's guardian neglects the child's psychophysical needs, or the family is dysfunctional in terms of upbringing (e.g. the child wears clothing inadequate for the weather, leaves the place of residence without adult supervision), or the family uses violence against the child (a parent/ other household member shouts at the child, uses smacking or similar types of physical punishment), the competent social welfare centre shall be informed of the family's need for assistance where the failure to meet the child's needs results from a situation of poverty, or — in the case of violence and neglect — of the necessity to initiate the "Niebieskie Karty" procedure ("Blue Cards" procedure).
4. The further course of the proceedings lies within the competence of the institutions referred to in the preceding points.

e) Peer harm

§ 12

1. In the event of a suspicion of harm to a child by another child present at the place where the Startup provides its services (e.g. during group sessions), a conversation shall be conducted with the child suspected of causing the harm and their guardians, as well as separately with the child subjected to the harm and their guardians. In addition, other persons with knowledge of the incident shall be spoken to. During the conversations, efforts shall be made to establish the course of the incident, as well as the impact of the incident on the mental and physical health of the harmed child. The findings are recorded on the intervention card (Annex No. 5). Separate intervention cards are drawn up for the harming child and the harmed child.
2. Together with the parents/guardians of the harming child, a remedial plan shall be developed in order to change the undesirable behaviour.
3. With the parents/guardians of the child subjected to the harm, a plan to ensure the child's safety shall be developed, incorporating into that plan ways of isolating the child from sources of danger.

4. During the conversations, it shall be ascertained that the child suspected of harming another child is not themselves being harmed by parents/guardians, other adults or other children. Where such a circumstance is confirmed, the procedure under § 10 or § 11 shall be followed.
5. Where the harming child is not connected with the Startup's activity, a conversation shall be held with the child subjected to the harm, with other persons who have knowledge of the incident, and with the parents of the harmed child, in order to establish the course of the incident, as well as the impact of the incident on the child's mental and physical health. The Foundation's management organises a meeting/meetings with the child's guardians, at which it provides them with information about the incident and about the need/possibility of using specialist support, including from other organisations or services, and about ways of responding to the incident.
6. If the person suspected of the harm is a child aged 13 to 17 and their behaviour constitutes a punishable act, the locally competent family court or the police shall additionally be informed by way of a written notification.
7. If the person suspected of the harm is a child over 17 years of age and their behaviour constitutes an offence, the locally competent police unit or public prosecutor's office shall be informed by way of a written notification.

Chapter IV

Principles of Protecting the Child's Image

§ 13

1. The Foundation ensures the highest standards of protection of children's personal data in accordance with the applicable provisions of law.
2. The Foundation, recognising the child's right to privacy and the protection of personal interests, ensures the protection of the child's image.
3. Guidelines concerning the principles of publishing a child's image constitute Annex No. 8 to this Policy.

§ 14

1. A Beneficiary/Startup Associate must not allow media representatives to record a child's image (filming, photographing, recording the child's voice) on the premises of the facility without the written consent of the child's parent or legal guardian.
2. In order to obtain the consent referred to above, the Beneficiary/Startup Associate may contact the child's guardian and establish the procedure for obtaining consent. It is inadmissible to provide a media representative with the contact details of the child's guardian without that guardian's knowledge and consent.

3. If the child's image constitutes merely a detail of a whole, such as an assembly, a landscape or a public event, the consent of the parent or legal guardian to the recording of the child's image is not required.

§ 15

1. The publication by the Startup of a child's image recorded in any form (photograph, audio-video recording) requires the written consent of the child's parent or legal guardian. It is also good practice to obtain the consent of the children themselves.
2. The written consent referred to in section 1 should contain information as to where the recorded image will be placed and in what context it will be used (e.g. that it will be placed on a website for promotional purposes).

Chapter V

Principles of Children's Access to the Internet

§ 16

1. The Startup, when providing children with access to the Internet, is obliged to take measures to protect children from access to content that may pose a threat to their proper development; in particular, protective software shall be installed and kept up to date.
2. During the provision of services by the Startup, a child's access to the Internet is possible:
 1. under the supervision of the Beneficiary or a Startup Associate during computer classes,
 2. without the supervision of the Beneficiary or a Startup Associate — on computers designated for this purpose, located on the premises of the facility where the Startup provides its services (open access),
 3. via the facility's wifi network, upon entering a password.
3. In the case of access provided under the supervision of the Beneficiary or a Startup Associate, the Beneficiary or the Startup Associate is obliged to inform children about the principles of safe use of the Internet. The Beneficiary or the Startup Associate also watches over the safety of children's use of the Internet during the sessions.
4. Where possible, the person responsible for the Internet in the Startup conducts periodic training sessions for children on the safe use of the Internet.
5. The Startup ensures permanent access to educational materials on the safe use of the Internet at the computers from which open access is possible.

§ 17

1. The person responsible for the Internet in the Startup ensures that the Internet network is protected against dangerous content by installing and updating appropriate, modern software.
2. The software referred to in section 1 of this paragraph is updated by a designated Startup Associate as needed, at least once a month.
3. The designated Startup Associate checks, at least once a month, whether the open-access computers connected to the Internet contain dangerous content. Where dangerous content is found, the designated Startup Associate endeavours to establish who was using the computer at the time it was introduced.
4. Information about the child who was using the computer at the time the dangerous content was introduced is forwarded by the Beneficiary/designated Startup Associate to the Foundation's management, which arranges for the child a conversation with a psychologist, a pedagogue, or an in-house or external associate.
5. The pedagogue/psychologist/in-house or external associate conducts with the child referred to in the preceding points a conversation on the subject of safety on the Internet.
6. If, as a result of the conversation conducted, the pedagogue/psychologist/in-house or external associate obtains information that the child is being harmed, they undertake the actions described in Chapter III of this Policy.

Chapter VI

Monitoring the Application of the Policy

§ 18

1. The Foundation's management designates Grzegorz Stępień as the person responsible for the Child Protection Policy at the Foundation.
2. The person referred to in the preceding point is responsible for monitoring the implementation of the Policy, for responding to signals of violations of the Policy and keeping a register of reports, and for proposing amendments to the Policy.
3. Every disclosed or reported incident or event threatening the welfare of a minor, of which the person indicated in section 1 has knowledge, is recorded in the Register of events threatening the welfare of a minor, the template of which constitutes Annex No. 9 to this Policy.
4. The documentation is kept at the Foundation's registered office in a place secured against access by unauthorised persons.
5. The person referred to in section 1 of this paragraph conducts, once every 12 months, a survey among the Beneficiaries monitoring the level of implementation of the Policy. The template of the survey constitutes Annex No. 10 to this Policy.

6. In the survey, Beneficiaries may propose amendments to the Policy and indicate violations of the Policy.
7. The person referred to in section 1 of this paragraph analyses the completed surveys. On this basis, they draw up a monitoring report, which is then forwarded to the Foundation's management.
8. The Foundation's management introduces the necessary amendments to the Policy and announces the new wording of the Policy to the Foundation's Beneficiaries, children and their guardians.

Chapter VII

Final Provisions

§ 19

1. The Policy enters into force on the day of its announcement.
2. The announcement is made in a manner accessible to the Foundation's Beneficiaries, children and their guardians, in particular by placing the document on the website and sending its text electronically by each Startup.

Application for examination of the child's situation (template)

Place, date

District Court in

Family and Juvenile Division

Applicant:

correspondence address:

Participants in the proceedings: (first names and surnames of the parents)

ul. (address of residence)

parents of the minor: (first name and surname of the child, date of birth)

Application for examination of the child's situation

I hereby apply for an examination of the situation of the minor (first name and surname of the child, date of birth) and for the issuance of appropriate guardianship orders.

Statement of grounds

From information obtained from the associates of who are in contact with the minor, it appears that no "Niebieska Karta" ("Blue Cards" procedure file) has been opened for the Family. In view of the above facts, it may be presumed that the welfare of the minor is at risk, and that are not properly exercising parental authority. Therefore, the application for an examination of the minor's family situation and possible support for the parents is justified.

The associate caring for the minor is (first name, surname, work telephone number, address of the facility).

..... (signature)

Annex No. 8 to the Policy for the Protection of Children from Harm

Guidelines concerning the recording of a child's image (photographs, films)

Guidelines concerning the recording of a child's image:

- All children must be clothed.
- Recorded images should focus on the activities performed by the children and, where possible, depict groups of children rather than individual persons.
- Ensure that the photographer or the person filming does not spend time with the children and does not have unsupervised access to them.
- Any suspicions and problems concerning inappropriate images of children must be reported and recorded, in the same way as other worrying signals concerning threats to children's safety.

Guidelines concerning the publication of children's images:

- Use only children's first names; do not disclose too many details concerning their place of residence or interests.
- Ask the child for consent to the use of their image.
- If possible, ask for the consent of the child's parents/guardians and inform all interested parties of where and how you intend to use the child's image.
- Endeavour to use images showing a broad cross-section of children — boys and girls, children of various ages, with various talents and degrees of ability, and representing various ethnic groups.
